I have a 99 civic lx. Had the same problem. I got a bottle of fuel system cleaner which I put in my gas tank and then filled it up. I drove the car around a few days and its all cleared up . My civic is now idling 600 rpm.. I have also stopped buying the cheap gas. And only use permium 91-93. Strangely the car runs smoother and faster.

The Honda CA95 was also well-equipped, including a comprehensive tool kit and an item still unheard of on many larger motorcycles — an electric starter. That was an important feature and one appreciated early by Honda, a simple piece of equipment that made Hondas easy bikes for non-traditional motorcyclists entering the market to warm up to.

**List of Honda engines - Wikipedia**

All of the miles you've put on your Honda Accord have caused your vehicle's ignition point and wires to wear out pre-maturely, making it harder for you to start your car right up and causing it shut off when you're sitting at stoplights.
