**All about Breeding Lovebirds by Mervin F. Roberts**

A lovebird is the common name of *Agapornis* (Greek: αγάπη *agape* 'love'; όρνις *ornis* 'bird'), a small genus of parrot. Eight species are native to the African continent, with the grey-headed lovebird being native to Madagascar. Social and affectionate, the name comes from the parrots' strong, monogamous pair bonding and the long periods which paired birds spend sitting together.
