Delco Remy Division - Service Manuals

Gene, did you check all 6 diodes in the rectifier, as well as the three in the diode trio (or replace it with a new one)? When you get it going again, connect the #2 terminal over to the large output stud, and the #1 terminal to the ignition switch, using a diode, a resistor or an "idiot light" in that lead, to prevent a re-occurrence of the problem you are now having, in the future.
