In order to discuss why
living organisms are so

Read Online Diversity In Living Organisms

diverse it is firstly
important to discuss
what diversity actually
is. By dictionary
definition biodiversity,
the diversity of living
organisms, is “the
variety of plant and
animal life in the world
or a particular
habitat.”(Compact
Oxford English
Dictionary, 2003
revised edition).

Read Online Diversity In Living Organisms

Biodiversity is not evenly distributed, rather it varies greatly across the globe as well as within regions. Among other factors, the diversity of all living things depends on temperature, precipitation, altitude, soils, geography and the presence of other species. The study of the spatial distribution of organisms, species and ecosystems, is the science of

Diversity In Living Organisms

:- Living organisms have been broadly classified into five main kingdoms. They are :-

- i) Monera
- ii) Protista
- iii) Fungi
- iv) Plante
- v) Animalia

Each kingdom has been further classified into smaller sub - groups at various levels as :-

- Kingdom
- Phylum (for plants) / Division (for animals)
- Class
- Order
- Family
- Genus
- Species
