GAL Canada Company Website. Operators. The function of a Door Operator is to open and close the cab doors in order to permit secure passenger entry and egress.

### **www.gal.com**

Place the operator over the pre-tapped holes in the header assembly. Set the base flush with the face of the header assembly and tighten the front bolts only. Move the operator base and header until the header is perfectly plumb. Temporarily clamp the rear of the base to the operator support to prevent any further movement of the header.
