### Traditions of Preston opens memory care unit

Book Description. This international and interdisciplinary volume explores the relations between translation, migration, and memory. It brings together humanities researchers from a range of disciplines including history, museum studies, memory studies, translation studies, and literary, cultural, and media studies to examine memory and migration through the interconnecting lens of translation.

### Memory - Culture and Psychology

This course is concerned with the cultural politics of memory and trauma. Whose memories are sought, believed and commemorated in the public sphere? What problems do traumatic events present for those attempting to commemorate or represent them? Is trauma a useful cross-cultural concept? We will begin by tracing the history of the concept of trauma in psychoanalysis, medicine and popular culture.
