## **List of artillery by type - Wikipedia**

Artillery; British Artillery. In the 1930s the British artillery was in a transitional phase. With older field pieces being replaced by more modern guns and howitzers. However due to budget constraints this transmission was never fully completed and many overseas units still retained their older pieces.

## **Portuguese Armor - Tank Encyclopedia**

A list of artillery catalogues types of weapons found in batteries of national armed forces' artillery units.. Some weapons used by the infantry units, known as infantry support weapons, are often misidentified as artillery weapons because of their use and performance characteristics, sometimes known colloquially as the "infantryman's artillery" which has been particularly applied to mortars.

The Navy would remain strongly independent until the 20th century, some common exercises being held under political coordination. Colonial Forces were also independent of the territorial Army. Various ministries were merged eventually [...]

## **T-10 tank - Wikipedia**

Modern SP Artillery 1945 50 days  
Modern Tank Although some modern TD's superficially resemble tanks and can sometimes even fill the same roles, they represent a clean break from older SPG's, providing greater mobility and stealth. However, their armor is thinner and only sufficient to resist small cannons, shrapnel, and handheld arms fire.

### **1945-Present < Mezzi corazzati ...**

Anti-tank artillery would be included in mobile tank-led Wehrmacht and Red Army units due to the possibility of encountering enemy tanks in a meeting engagement. The new doctrines of using the tank, were divided into infantry and cavalry schools of thought. The former regarded the tank as a mobile artillery system to be used for infantry support.
