Created by real editors, the category list is frequently updated.

1969 PIPER PA-28R-200 Arrow II - Specifications ...

The Piper Arrow II came out in 1972 with a little bit of a stretch on the original Arrow - the fuselage was extended five inches, adding some extra legroom for the rear passengers. The flight control surfaces were also expanded with both an increased wingspan and larger horizontal stabilizer.

Arrow Antenna Instructions:

The 200-HP Piper Arrow is an unremarkable performer; the 180-HP version is, well, doggy. Cruise speeds range from 130 (180-HP) to 143 knots (normally aspirated 200-HP T-tail) and as high as 170 knots for a turbocharged version flown in the teens. The non-turbo d Arrows consume nine to 12 gallons per hour, with the blown versions using around 14 GPH when pushed.
